

DISPOSABLE RAZOR RECYCLING PROGRAM

All brands of blades and razors (systems and disposable units, and replaceable-blade cartridge units), rigid plastic packaging, and flexible plastic bag packaging.

Please make sure your items are dry before dropping them off.

HOW WE RECYCLE

Gillette

- 1** The razors, blades, and packaging are received and checked into inventory.

- 2** Once collected, the waste is broken down and separated by material.

- 3** Plastics are cleaned and pelletized to be recycled into new products, such as picnic tables and park benches.

- 4** Metal materials are sent for smelting and conversion to new alloys.
